

Please Attend!

One of the three **Dialogue on Poverty Community Meeting** to discuss the needs of the low income in your community. These meetings are scheduled for the following:

- **Monday, February 22, 2016 Meeteetse Senior Center, 1105 Park Avenue, Meeteetse, 12:00PM**
- **Monday, February 22, 2016 Park County Library, 1500 Heart Mountain St., Cody, 3:00PM**
- **Tuesday, February 23, 2016, Crisis Intervention Services Conference Room, 335 N. Gilbert St., St., Powell at 11:00AM**

The meetings will be hosted by the Yellowstone Country Assistance Network and facilitated by Sheela Schermetzler, a Resource Development Consultant conducting the Park County Low Income Needs Assessment for 2016 on behalf of Yellowstone Country Assistance Network. The YCAN Board has donated prizes which will be given away at each meeting!

If you have any questions regarding the meetings please contact Julie Dunlap, Executive Director at (307) 754-2073 extension 1 or ykan@tctwest.net

B. Community Meetings

Community meetings were held in Meeteetse, Cody and Powell on February 22-23. Notices and advertisements of these meetings are found in Appendix E. All focus groups were provided with an introduction to the purpose of the needs assessment:

Park County through the Yellowstone Country Assistance Network receives funds from the State Department of Health. The Network oversees the award to agencies and monitors the funds. Every county in the state receives (CSBG) Community Services Block Grant funds. The purpose of the funds is to serve the low income needs of a community. A requirement of the Block Grant program is to complete a Community Needs Assessment. This must be done every three (3) years. The Tripartite Board is made up of nine members – three elected officials, three community members, and three elected members that represent low income. Low income representatives are nominated by other community agencies. The overall purpose of the Assistance Network is that it is made up of people making decisions who are elected officials, citizens at large and low income individuals.

The report from this process will be given to the Board and public members on Monday, May 9, 2016 10:00AM at the Dialogue on Poverty. This will be held at the Park County Library and the meeting will be open to public. Sheela Schermetzler will report the results to the board. There are three components to the community needs assessment process – surveys, community meetings, statistical and demographical information. Surveys were sent to agencies that serve low income population so they can distribute them to clients to complete and return. We used a list compiled by the Executive Director of the Network. This list also included the faith-based community to send surveys to agencies. Agencies respond to surveys also. There are two types of agencies that received surveys- those that received CSBG funds and those agencies that have not received any CSBG funds. We are repeating these community meetings in 3 locations- Meeteetse, Cody and Powell. The same questions and format were used at each meeting.

The next source of information tool is statistical and demographic data. We look at all of these different sources/tools so there is integrity to the findings. The Tripartite Board takes results and information from this community needs assessment and uses it to set priorities for funding. This is called a Community Action Plan. When the Board calls for applications for CSBG agencies they will match those grant applications with the greatest needs as reflected in the Community Action Plan of the Yellowstone Country Assistance Network. The Board then decides what projects will be funded. It is anticipated approximately \$127,000 of CSBG funds is available for Park County during FY 2017.

1. COMMUNITY MEETING – Meeteetse Senior Center, 1105 Park Avenue, Meeteetse, 12:00PM, February 22, 2016, 29 attendees.

1 and 2.) Introduce yourself and indicate what kind of human services are there in your community and Park County? Are there any gaps in services?

John – There are recreational opportunities for all age ranges and the family. There is transportation to Cody for medical appointments and prescriptions once/week. There is a therapy pool at the school.

We are also talking to rehab facilities to provide services for our folks.

Sharon – We have a medical clinic one day/week. Dr. Nolton who runs the medical clinic is not going to come here in August. We are talking to Doug McNulty to see if we can get services here. I have to get an allergy shot.

Senior Center patron – We have meals twice a week and we play cards, and games. The Recreation District takes seniors shopping. A manicurist and pedicurist also come to the Senior Center.

Becky – The Episcopal Church has outreach - food, clothing, school kids' coats. They also do community baskets for Christmas and Thanksgiving. The LDS church also does outreach.

Tracy- We have a fantastic fire department.

We have a massage therapist, library, museum (gift shop), and a Visitor Center.

Gaps in Service:

We don't have enough paramedics and EMT's to run our ambulance. When you call 911 EMT's are sent from Cody if there is no one available from Meeteetse.

Child Care – Needs to be open all the time.

We need a restaurant and grocery store. Currently the store has a few items and is expensive. Low cost groceries are hard to come by.

3.) and 4.) Least Important Need and Most Important Need. Look at the list below. First I would like you to tell me the least important need in your community and Park County. Then tell me what you believe is the **most** important need in your community and Park County. This is based on your knowledge or your agency's knowledge. Yellowstone Country Assistance Network, the administrator of the Park County Community Service Block Grant, has to allocate funds according to needs. This is a tool for them to use. Here is the list:

- Accessibility/affordability to Medical Services, Dental Services, Prescription Drugs and Eye care
- Affordable Housing
- Child Care
- Disability Services
- Education – Adult Basic Education, GED, English as a Second Language, Literacy
- Emergency Services (Emergency Housing, Soup Kitchen, Food and Clothing)
- Employment and Training (Counseling, Job Training, and Work Clothes)
- Family Services (Parent Education, Mediation, Visitation)
- Food, Commodities and Nutrition Services (Cent\$ible Nutrition, WIC and Meals on Wheels)
- Linkages to Other Resources (Resource Directory and Referrals to Other Agencies)
- Mental Health Services
- Senior Services (Meals, Transportation and Home Aides)

- Substance Abuse Services
- Transportation
- Youth Services
- Other – Please describe

Least Important:

Employment and Training – so if you don't have a job you won't be here.

Disabilities – There doesn't seem to be a lot of need for this. Wyoming Senior Independent Living has provided services in the community.

Education – There doesn't seem to be a great need for adult education as that is provided at the high school.

Most important:

Housing - We need mid-level affordable housing for rent or to buy. We have a shortage of housing. We have two tiers of housing, i.e., extremely comfortable or extremely uncomfortable – sub-standard.

Transportation – We need affordable, basic services to anywhere. There is a senior bus but program needs to be expanded. It only goes as far as Cody. Currently the bus goes once a week – 8:30 to about 2:30. Currently the transportation is \$5.00/ride, and membership (\$100/year) to the recreation center. The recreation center also provides a fitness center, after school program, yoga, zumba, and movies. There are usually 3-4 people that use the transportation service to Cody. We need transportation more times per week.

Medical Services – We are losing our medical clinic. Currently we have medical health services that come twice /week.

Ambulance Services – We need improvement on ambulance service. We need more paramedics in the community. If they are off duty, they have to come from Cody.

Low income food – We provide senior meals, free meals, and the Church provides meals.

Improve linkages to other resources - Most of people that come to senior center have a pretty good handle on community resources. There are a lot of seniors that don't come in.

5.) What would you like your communities to work on for families to get out of poverty and become self-sufficient?

Yes many of the families are having a hard time making it. We can always improve services to families that are in poverty. There needs to be a realization that there is a struggle. People in the community pull together to help. There is pride with individuals to not ask for help.

For the seniors here at the center we suggest donations for the meals that we offer twice per week.

We wish that we could offer meals more often. The seniors would be appreciative of more meals. The Senior Center also does home delivery twice/week. Frozen meals are available. We surveyed seniors and they felt that two meals per week were enough.

6.) *Is there anything else that you came to this group that you wanted to say but you didn't have the opportunity to say?*

It would be interesting to contrast the services that are offered in other Park County communities. We think there are a lot of services in Park County. We need to do better networking. For what we have here at the Senior Center the ladies do a great job.

We do miss someone giving blood pressure checks.

The churches including the Community Church, the Episcopal Church and the Catholic Church provides community outreach for those that need help. Kerry Anderson is head of Community Outreach. Sometimes food in their pantries and freezers get old because people won't let you know that they need help. The official director lives in Jackson during the winter. Community outreach doesn't give direct cash.

Youth services –The Recreation Center has an afterschool program for younger kids. In the summertime there is the Meeteetse Youth Worker program. There are not enough programs for kids 6 through 14 –don't have enough programs for them. If there is a family business that's okay. But kids can't stay home alone.

2. COMMUNITY MEETINGS – Park County Library. 1500 Heart Mountain St., Cody, 3:00PM, February 22, 2016, 16 attendees

1.) *Introduce yourself with your name, community and a human service agency in Park County that you are familiar with.*

Dawn – West Park Hospital Behavioral Health. I am familiar with the Episcopal Church. They help with many needs.

Wendy – West Park Prevention and Wellness. I am familiar with the Episcopal Church and Heritage Health Care. They are reaching out and are being active in Park County.

Collette – Heritage Health Center in Powell. Heritage Health Center is a federally qualified health center, providing primary care at free or reasonable prices or sliding fee scale that is at 200% poverty level.

Jack – Heart Mountain Volunteer Medical Clinic. Heart Mountain provides free health care for those that are at 200% Poverty Level. It has labs, and is staffed by volunteer hospitals.

Skip – New to agencies in the community. I am not aware of the needs and services in the community.

Lauretta – Heart Mountain Volunteer Medical Clinic. I am familiar with Serenity House as they offer services for pregnant women and expectant mothers.

Pam – Department of Family Services. I work with a little bit of everyone. I am familiar with the food stamp program, the Cody Cupboard and the Manna House.

Ron Bushnell -- Department of Workforce Services. DFS is a very good agency for all those that need help. I am also familiar with the new Hospice Center, Cody Cupboard, Valley Loaves and Fishes, and the American Legion.

Jamie -- Department of Workforce Services. I like all the agencies. I am the Case manager for POWER program. I get referrals from DFS for people to have self-sufficiency. I am familiar with The Yellowstone Country Assistance Network. The community is very generous.

Duane -- Harvest Church. We have a food pantry for food that we get food donated. We also do some work at Jube's Trailer Park. I am familiar with Crisis Intervention Services in Park County. They deal with crises and in some cases it is a life and death crisis.

Warren -- Clergyman at Christ Episcopal Church, and a member of the Foundation of Wyoming. I am familiar with lots of agencies, i.e., CASA, Northwest Family Planning, Crisis Intervention Services and state Public Health programs.

Mary -- Christ Episcopal Church. The Church has great resources. I am familiar with Yellowstone Behavioral Health, and HOPE house. These agencies are underrepresented and have no clout in the community.

Inga -- Manna House. We provide food for needy, clothing and household items. I am familiar with Manna House.

Clarissa -- Manage apartments at Mountain View Manor. I am familiar with Christ Episcopal Church, WY Services for Independent Living, and Hope House.

Sara Murray -- Advocate for CASA. I am the new President of Park County of NAMI. I am familiar with Crisis Intervention training. We need to better deal with mentally ill people. I have been poor a lot of my life but not in spirit.

Jackie -- Senior Center. We provide affordable meals at \$3.50/meal. I am familiar with Jubilee Ministry, and the Cody Bible Church. I collect food for Grandview Apartments.

2.) What kind of human services are there in your community and Park County? Are there any gaps in services?

Big Brothers Big Sisters
Bright Future Mentoring
Boys and Girls Club
Civil Air Patrol - teach and support in civil defense.
Hands to Help -- handicapped and seniors with household chores.
LIEAP
Head Start and Even Start
Children's Resource Center
Tiny Tots Preschool
Library -- awesome resources, free afterschool care, reading
Experience Works

Gaps in Service:

Medical bus to Billings is no longer going from Senior Center. There is a big need for that. There are individuals that have volunteered time and effort to provide transportation. We need public transportation from Cody and Powell. There is also a need to provide transportation to work.

Emergency Housing –We need a homeless shelter. We are one of four states in recession. We need a facility besides Crisis Intervention that one can go for a night or two. It costs \$175 to take people to Billings Homeless Shelter.

Need Affordable Housing – Can't get in anything for less than \$600. The Mountainview Manor fits criteria. They opted out of the HUD program. Senior citizens are allowed in there as well. They have done a lot of renovation to make it more desirable. They are really nice. The Manager would be glad to show anyone.

Cheyenne Housing Authority – Provides Housing Choice vouchers, Section 8.

Rocky Mountain Manor – Powell has affordable housing for elderly but housing cost is well over 30% income levels. Tenants end up paying 50% of funds. Spend \$500-600 per month for housing cost. Some folks are only getting \$760/month for Social Security or SSI. There isn't much left. This is not a good place if one has a felony record. There is no smoking or no pets. This is all dependent upon availability and meeting the income level.

Wyoming Legal Services – People that were obviously disabled and applied for SS are being denied more than once. They want you to have an attorney. There is no one around here to check their application or assist them. One has to go to Sheridan or Cheyenne to get help. People don't have cars or money to go to those places. Have people trying to get on disability and they are up against the wall. There aren't enough attorneys to take on these claims. How are people getting on disability? In Billings there are attorneys on every block. They don't serve Wyoming. One has to be working under a licensed attorney. There are no resources.

There is no help for clients that owe \$50,000-\$100,000 to the hospital. The interest will kill them.

Workforce Services office turned me away because I was disabled. I don't know why. I went to Voc Rehabilitation and I am now on Experience Works. The Vocational Rehabilitation office is in Sheridan as they are in a different area for Park County but they will come over to Cody.

Dental – We have no dental services to work with us. By May, Heart Mountain Volunteer Medical Clinic can help with preventative care. There are very few dentists to provide minimal care or even take Medicaid patients. We have had good luck if we presented a voucher to the. Also Public Health will hand out a \$275 voucher for dental care. They will run out in October. Some people have co-pays to fill in. Have to fill application and meet the qualifications for prescription, dental.

Public Health has only two staff. There are job openings if qualified.

One needs a running vehicle to hold a job. If someone has a vehicle and it breaks down they will not be able to work. Christ Church has vouchers for about \$250. Christ Church, Presbyterian Church and St. Anthony's Churches have been really good and work together to help people in need. Ninety five percent of people that are served aren't members.

The Manna House has gasoline vouchers as well as Cody Bible and LDS church.

Park County Community Survey of Needs and Services 2016

3.) and 4.) Least Important Need and Most Important Needs. Look at the list below. First I would like you to tell me the least important need in your community and Park County. Then tell me what you believe is the **most** important need in your community and Park County. This is based on your knowledge or your agency's knowledge. Yellowstone Country Assistance Network, the administrator of the Park County Community Service Block Grant, has to allocate funds according to needs. This is a tool for them to use. Here is the list:

- Accessibility/affordability to Medical Services, Dental Services, Prescription Drugs and Eye care
- Affordable Housing
- Child Care
- Disability Services
- Education – Adult Basic Education, GED, English as a Second Language, Literacy
- Emergency Services (Emergency Housing, Soup Kitchen, Food and Clothing)
- Employment and Training (Counseling, Job Training, and Work Clothes)
- Family Services (Parent Education, Mediation, Visitation)
- Food, Commodities and Nutrition Services (Cent\$ible Nutrition, WIC and Meals on Wheels)
- Linkages to Other Resources (Resource Directory and Referrals to Other Agencies)
- Mental Health Services
- Senior Services (Meals, Transportation and Home Aides)
- Substance Abuse Services
- Transportation
- Youth Services
- Other – Please describe

Least Important (could be met in the community):

Jackie – Linkages.

Sara – Food is being met.

Clarissa – Mental health services provide good services to the community.

Inga – Youth services as there are a lot of good programs including Young Life and a lot of churches provide programs for teenagers to help disciple them.

Mary – Food and youth services are in good shape and agencies and churches do a good job. This is comparatively easy to figure out. Youth services are primary services, and there are a lot of good services. The backpack feeding program has been very successful.

Warren – Food – WIC and have lots of agencies that provide food. The Senior Center also provides meals. Education is also the least important because there are lots of educational opportunities.

Duane -- There are disability services, particularly if one needs a handicapped ramp.

Jami - Job Service provides great resources for obtaining a job. There needs to be a service to help people with Medicare and understanding it.

Ron -- There are a lot child care providers. I am not sure about quality. There are a lot of people who went into child care. Education is being covered. ABE, GED is being covered.

Pam -- Foster care parents are quite short.

Lauretta -- Education is pretty well covered for those that are transitioning on into the next phase. If a patient needs referral onto a specialized physician my agency doesn't have flexibility for funding. When a patient has to go to a surgeon and rheumatologist the cost is preventative.

Skip -- pass

Jack -- People that you see need everyone else.

Collette -- Transportation and senior centers are so great. It is phenomenal to get transportation to medical appointments.

Wendy -- Food and education. We have a great substance service but we need to do a better job about letting people know about them.

Dawn - We have funding for patient/in-patient care. The doctors don't give out the medications and many of the patients don't have funding for it.

Most Important:

Dawn -- We need affordable housing and transportation.

Wendy -- We need affordable housing and preventative mental health services. Some people need services before they get involved with law enforcement. We need to catch people early and provide a safety net. People think that they can "cowboy up" but sometimes they can't do it alone.

Collette -- Transportation. If stuck at your house because you don't have transportation you can't get help. Public transportation failed in the past. This is a "cowboy" thing too. Transportation failed due to lack of use. It ran in town.

Jack - We need mental health services but acute mental health services. There is no help.

Skip -- nothing.

Lauretta -- There is a disconnect in low income knowing about resources but don't know how to impact that. We have a limit to everything as we can only do what we can do.

Pam - Affordable Housing -- I know a young young mother with three kids, who are in daycare and

she is going back to school and getting degree. They are trying to do well but she needs affordable housing to do this.

Ron -- There is a lack of employment opportunities that provide a self-sufficient life. Everyone that is coming in the door is asking for unemployment. It is difficult to get people employed and be self-sufficient by working at Wendy's. We need emergency services and transportation.

Jamie -- We need employment and good job. We need transportation to Big Horn Basin. We have several people from the Big Horn Basin who work with Wal-Mart,

Duane -- Housing -- paying out 50% of household income will never raise standard of living.

Warren -- The most important is realizing that there is poverty. We need to teach people about poverty. I am working with Poverty Alleviation. This is similar to Bridges of Poverty. We have a speaker's bureau of folks that educating people about it. Legislators don't think there is poverty. If legislators think that there is no poverty, many others will feel the same. Transportation is also most important.

Ron -- Indicated that folks should read Getting Ahead in a Getting by World. Board members need to go through this.

Mary -- Emergency Housing and Transportation

Inga -- Transportation

Clarissa -- Transportation and Emergency Housing

Sara -- Local inpatient mental healthcare. We also need affordable housing, medical services. There is a gap for eye care and dental care. The deductible is too high for the middle class. People are living on the edge of poverty.

Jackie: Transportation. Companies aren't paying people livable wage.

5.) What would you like your communities to work on for families to get out of poverty and become self-sufficient?

Jobs and transportation

6.) Is there anything else that you came to this group that you wanted to say but you didn't have the opportunity to say?

Collette -- Heritage Health Center accepts insurance with a high-deductible and can put the patient on a sliding fee scale to pay for the difference. We have a person dedicated to insurance to help with processing payments and getting the most out of the insurance.

Park County does have a Resource Directory. It's a green sheet. We will also be working with Poverty Coalition to update it.

Sara -- CASA group has been very helpful to the community. A mother was ordered by the Court to get parenting classes to take care of her infant. She got that help at CASA. Public Health in Powell and here in Cody provide newborn health care services.

There is an active health coalition in Cody. Hospital feeds us lunch and gives us a meeting room. Contact Wendy Morris at wmorris@wphcody.org

3. COMMUNITY MEETINGS – Crisis Intervention Services Conference Room, 335 Gilbert St., Powell, 11:00AM, February 23, 2016

1.) Introduce yourself with your name, community and the human service agency in Park County that you are involved with.

Jackie – DFS
 Candice – Women’s Clinic
 Cathy – Senior Center
 Jessica – Heritage Health Center
 Collette – Heritage Health Center

2.) What kind of human services are there in your community and Park County? Are there any gaps in services?

Jackie – DFS is available for anyone. Jackie is the contact for agencies.

Candice – Crisis Intervention Services. We refer our patients to a lot of community agencies. We provide housing. We refer to Loaves and Fishes for food. It helps that a lot of agencies are located in one building.

Cathy – The following agencies are in the Annex - WIC, Public Health, Adult Protective Services, Safe Kids, Loaves and Fishes, and the Circuit Court Office.

Food – Monthly commodities are provided through the American Legion. The American Legion houses that grant through Food Bank of the Rockies. Last week they brought in a good load of food.

Community Basket – Is offered through the Police Department and Powell Community Fund. It will help with rent, and clothing. They use an application. Their budget is \$500/mo.

Ministerial Association is comprised of individual churches. They try to spread out the funding for individuals and groups. They talk with one another.

Public Health – Public Health has many different programs.

Family Planning – There is no office here in Powell but there is one in Cody.

Whistle – Wyoming Services for Independent Living provides disability services in the area.

Senior Center - Public transportation is offered through the Senior Center but there is no public transportation to Billings. The VA bus goes to Sheridan on Tuesday and Thursday for VA medical appointments. Veterans didn’t like the driver. Clients have to get a referral to go to a provider in Billings.

Brad Cline of Veterans Sources – helps to file VA claims.

Trudy Anderson helps veteran families who have been deployed with the National Guard. She also

Park County Community Survey of Needs and Services 2016

provides referrals.

Powell Hospital Valley Care provides different programs and support groups including caregiver and diabetic.

Jessica – Heritage Health Center has a PA and Medical Dr. A brochure was distributed. We will help with Medicare application, Medicare claims, and other insurance claims including Obamacare and Blue Cross Blue Shield. Heritage Health Center is a primary care clinic. Provide affordable health care on a sliding fee scale. We take everyone. If necessary we will refer to specialized care services. We are a federally qualified health services agency. Every Tuesday is our night clinic. For the low income and are in need of medications we can get them set up with pharmaceutical companies. We can also get them connected with 340B program.

Hospital – many lab draws are done at a discounted rate.

Head Start

Absaroka Children Health Services

Yellowstone Mental Health and Positive Progression with services offered on a sliding fee scale.

Big Brothers Big Sisters

Boys and Girls

Services for Independent Living

Coalition for Suicide Prevention – They talk about services that exist in the community.

Poverty Alleviation – This is a grant that will service Park County.

Churches – Several churches are over their budget due to providing funds for those in poverty, particularly with rent and electrical. They also provide food. Powell Ministerial Association assists with this as well.

Gaps in Services:

Homeless – Are not acknowledged in government. County prosecutors don't want the homeless problem. We don't have any homeless services.

Transportation is a huge need to move the homeless so that they can get housing and a job. There are a lot of people that are homeless but they are sleeping on a friend's couch. People have a blind eye to poverty. They need to turn their attention to poverty in the community. In this area the homeless never did count. There is a gap in this part of the state of the rural homeless. There is not a solution to the entire problem. An affordable solution is to buy a trailer and have them live in it.

Employment is sketchy. There are many part-time workers.

Insurance – We don't have Medicaid expansion. Legislators don't understand the need.

LIEAP is going to be reduced by 60%. People are going to be affected.

Park County Community Survey of Needs and Services 2016

Mental health and substance abuse is a gap. Mental health is available but the cost of it is the difficult part. There is not a huge waiting list. We can find assistance for the cost.

Yellowstone Behavioral does a 25 minute telemedicine session. The Dr. doesn't get to know the patient. Dr. Hopkins is in and out. There are three psychiatrist providers in the community.

Low income housing – They do credit checks and if they have bad credit they won't be able to rent the apartment.

DFS – Debbie Reif, work with the Homeless but they don't have a program.

Affordable housing

Senior housing

HUD housing

Emergency assistance with rent – Most agencies can't afford to give vouchers for the high rents.

Seeing multi-family generational living in one apartment.

3.) and 4.) Least Important Need and Most Important Needs. Look at the list below. First I would like you to tell me the least important need in your community and Park County. Then tell me what you believe is the **most** important need in your community and Park County. This is based on your knowledge or your agency's knowledge. Yellowstone Country Assistance Network, the administrator of the Park County Community Service Block Grant, has to allocate funds according to needs. This is a tool for them to use.

- Accessibility/affordability to Medical Services, Dental Services, Prescription Drugs and Eye care
- Affordable Housing
- Child Care
- Disability Services
- Education – Adult Basic Education, GED, English as a Second Language, Literacy
- Emergency Services (Emergency Housing, Soup Kitchen, Food and Clothing)
- Employment and Training (Counseling, Job Training, and Work Clothes)
- Family Services (Parent Education, Mediation, Visitation)
- Food, Commodities and Nutrition Services (Cent\$ible Nutrition, WIC and Meals on Wheels)
- Linkages to Other Resources (Resource Directory and Referrals to Other Agencies)
- Mental Health Services
- Senior Services (Meals, Transportation and Home Aides)
- Substance Abuse Services
- Transportation
- Youth Services
- Other – Please describe

Least Important Services:

Jackie – Linkages to other resources – The agencies work well together and refer to each other including DFS, Annex, Park County and Health Coalition

Cathy – Linkages

Jessica – Linkages

Sue – ABE-GED and Literacy

Collette – The least important services are food, commodities, nutrition and senior services.

Most important Services:

Cathy - Senior accessibility to medical services. Don't have shuttle services for medical appointments.

Julie and Jackie – Emergency services.

Candace – Emergency services, affordable housing and food and nutrition services.

Shelter – Batterer doesn't want their significant other to work. GED – go to Northwest College, 10 days for protection order. Help them to qualify thru WYCAN. YCAN - Some have fled and when they have some money and have a plan they get out on their. We help them get counseling. The battered typically go back to batterer 10-14 times.

5.) What would you like your communities to work on for families to get out of poverty and become self-sufficient?

We were not able to answer this question due to time restraints.

6.) Is there anything else that you came to this group that you wanted to say but you didn't have the opportunity to say?

The Needs Assessment report is important to others and we are very appreciative of it.

Jessica – Powell Valley Health Care also conducts a needs assessment. Different entities are required to do them. It is on the pvhc.org. Jim Canyon is in charge of it. It is still on the website. It has a little bit different of focus. A lot of money is being cut all over.

Collette – It is important that we get our boards involved with actual day to day happenings and struggles that we are having. There is a gap in understanding.

Sue – I see hard times for many different agencies. We need to try to eliminate duplication of services. There is a worry about having to pay back unemployment.

Collette – We need to have systems thinking at the state level.

The sign-in sheets with names addresses, phone numbers and e-mails for participants in the Dialogue on Poverty focus group sessions are found in **Appendix G**.
